Good morning, everyone. I'm going to talk about this year's school trip to the Kanto area. I know you are all excited about visiting Tokyo, but there are a few things I need to tell you.

On the first day, we will visit two places. The first stop will be Ueno Zoo, and the second will be Chinatown in Yokohama. From Ueno Zoo, you will need to take the train to Yokohama. Please check the train time schedule in your group before we leave.

On the second day, we will visit Tokyo Tower and Toyosu Fish Market before arriving back at our hotel.

We will take the shinkansen at 8:00 a.m. on Wednesday, November 13th and come back on Friday the 15th. Teachers will be at the station from 7:00, so please arrive before 7:30. I've included a list of things you need for the trip. Please also read the list of things that you can't bring. You can take your smartphones to take pictures, but you can't play games or listen to music on them.

Remember you will all do a presentation after we return to school, so take a lot of notes.

If there is anything that you can't eat, please let me know.

Finally, don't forget to bring lunch for the first day.

5 未確認飛行物体(UFO)に関する英文を読んで、後の問いに答えなさい。

A “UFO” is an “unidentified flying object.” Although many people connect the word UFO with *aliens, it can ①(A) any unexplained object seen in the sky.

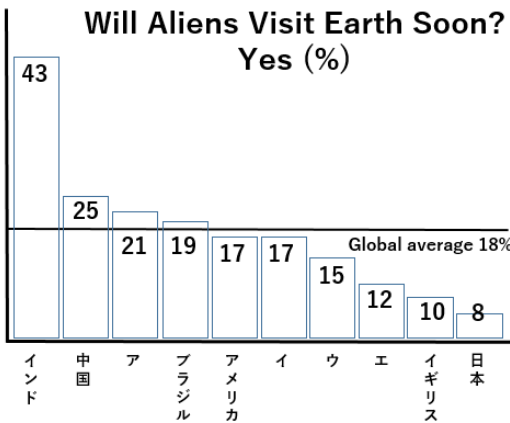

It is thought that people started to see UFOs after World War II, but thousands of reports of strange lights and objects in the sky have been recorded since the beginning of human history. (②), in 1516, people saw more than 200 UFOs of different sizes and shapes in Germany.

Actually, the most interesting part of UFO history began during World War II. British and German pilots saw lights high up in the sky. At first, the pilots thought they were *weapons, but when they realized both sides were seeing the lights, they decided that these lights were not made by humans. Nobody could explain them at that time.

Another UFO story happened in 1947 when something landed and broke into pieces near the town of Roswell, New Mexico, USA. All of the pieces of the object were collected by American soldiers who ①(B) that it was a common *weather balloon. People who saw the crash, however, reported that there ③[were / earth / things / were / not from / many / that]. Some people even said they saw things that were not human. After Roswell, UFO stories became more popular. More people saw strange lights in the sky, and these stories were shared in newspapers, on the radio, and later on TV.

The interest in UFOs led to a lot of research. The US government started a project called Project Blue Book to study UFO reports. ④They wanted to know that these objects weren't a danger to earth. Most reports were explained as natural or artificial objects, but some *remained a mystery.

Today, UFO stories are still popular. People enjoy reading and watching movies about UFOs, and talking about life on other planets. The results of a survey done in 36 countries in 2022 started some interesting conversations online. People were asked, “Do you think it's (⑤) that aliens will visit earth soon?” An *average of 18 percent said “yes.” As the graph shows, ⑥ Indians were quite confident about alien visitors. A smaller number of people in the UK and Japan said they thought aliens would visit us.

Why was the number so high in India? The reason might be that some old Indian stories contain flying objects and meetings with aliens.

As technology improves and we travel deeper into space, people continue to wonder: Where are all the aliens?

(注) aliens : 宇宙人 weapons : 武器 weather balloon : 気象観測気球
remained : ~のままだった average : 平均
